Volume 10, no. 4, e01617-19, 2019, <https://doi.org/10.1128/mBio.01617-19>. We note that Fig. 4 of the published version is an early version of the figure. This figure was revised during the revision and submission stages. The earlier version of Fig. 4 contains panel G, which was moved to be part of Fig. S3 in the supplemental material during our revision process based on reviewers’ suggestions, but at the proof stage, it was erroneously uploaded instead of the correct Fig. 4, which does not contain panel G. The published legend of this figure is correct, and the published Fig. S3 also includes the correct data. Thus, we here replace the published Fig. 4 with the correct Fig. 4 (below). We apologize for this unfortunate mistake.
